

BY AUTHORITY.

Board of Education Notices.

The Christmas vacation of the Government Schools will commence on FRIDAY, December 20, 1895, and last till MONDAY, January 6, 1896.

By order of the Board,

JOHN F. SCOTT,
Secretary.

Examination for Teachers' Primary Certificates, will be held on FRIDAY, January 3d, and SATURDAY, January 4, 1896, at the following places: Honolulu, Oahu; Hilo, Hawaii; Wailuku, Maui; Lihoe, Kauai.

By order of the Board,

ALATAU T. ATKINSON,
L. G. S.

It is the intention of the Board of Education to open a free night school for pupils above the age of 15. The school hours will be from 7 to 9 p.m. daily, except Saturdays and Sundays. The session will commence January 6, 1896, at the Fort-street School. Pupils desirous of entering should apply at the Board of Education.

The Board would like all teachers who are desirous of teaching in the night school to send in their names. From the list so obtained a selection will be made.

By order of the Board,

ALATAU T. ATKINSON,
L. G. S.

All Public Schools will be closed on Thursday, November 28th, in recognition of Thanksgiving Day. Schools will reopen on Friday, November 29th.

By order Board of Education,

JOHN F. SCOTT,
Secretary.

Notice.

ALBERT V. GEAR, Esq., has this day been appointed a Notary Public for the First Judicial Circuit of the Hawaiian Islands.

J. A. KING,
Minister of the Interior.
Interior office, Nov. 25, 1895. 162-1f

The Evening Bulletin,

DANIEL LOGAN, Editor.

TUESDAY, - NOV. 26, 1895.

FOR CLEMENCY.

There has not been a valid reason given by the opponents of clemency to the remaining prisoners of the insurrection for their attitude. They have been challenged to show that the granting of clemency would do violence to the leading principle of modern penology, which is that penalties are imposed on the guilty for the prevention of crime. The crime in this case was an attack on the establishment government, intended to subvert it and replace it with another form. Had the attack succeeded, all the legal authorities say it would have been no crime. Having been easily repulsed its authors and supporters were liable to the penalties for creating grave public disorder. There is no doubt that their object was to substitute one system of law and order for another. In other words, they were not seeking to institute anarchy, although their action was liable to end in such. They took their lives in their hands, and while still unsubdued the most severe measures might have been justifiable, against both those taken in the field and at their homes or in hiding. Once they were completely subdued and in the custody of the Government they were,

according to the part they took in the movement, either prisoners of war or political prisoners. All the lessons required for the prevention of similar disturbances in the future had been conveyed with crushing emphasis. According to the standards established by the most civilized nations, then, clemency to both the prisoners of war and the political prisoners became sound public policy for the Government to adopt. That this is the view of a great majority of the most influential residents—including those whose interests of person and property were the most imperiled by the uprising—is proved by the signatures to the petition for clemency which has been presented to the Executive. This petition is quite moderate in its prayers, asking only clemency on conditions, in most of the cases, which will make assurance positive that those released from prison will never again enter into, or ally themselves, with any movement for the subverting of the Republic of Hawaii.

OBSERVATIONS.

Spain having virtually herself recognized the Cuban rebels as belligerents, she will hardly take it amiss if other nations do the same.

Cholera figures continued to come from Russia at last foreign advices. The Czar ought to send some of his health officials to Silferia, and import a sanitary committee from Honolulu.

Following the example of Great Britain, a new piastre has been issued by France which, it is hoped, will replace the Mexican dollar in Indo-China, just as it has been replaced by the British dollar in Hongkong and the Straits.

As was anticipated in this paper, the labor committee of the Planters' Company has given an exhaustive report, whose complete statistics prove the utter worthlessness of the Labor Commission's report, that simply dabbled in detached figures and desultory statements.

Thirteen ladies in waiting to the Queen of Korea were butchered along with their mistress. By our last mail advices, direct from Shanghai, it is learned that the Japanese authorities have made some arrests for the massacre. An old resident of Seoul, writing to the Shanghai Celestial Empire, holds the Japanese Minister guilty of connivance with the murderers. He says that Japanese influence in the peninsula is doomed, and that nothing can revive it.

Much attention is now being given to the raising of provender for stock on these islands. Nearly all of the pineapple raising companies on this island have some ground in grain, to be cut green for forage, besides which luxuriant patches of alfalfa are to be seen. As the country imported grain and feed to the value of \$373,449 in 1894, the importance of these efforts to raise fodder at home may be estimated.

An easy way to learn foreign languages by hard application is given in an article elsewhere. This may be a paradoxical way of putting it, but a correct one all the same. It is an easy system, but requires staying power and unflagging industry to achieve success. The way that Japanese domestics in this country, young and old, are tackling English without skilled tutors is a shining example to English-speaking people who would like to master foreign languages.

Miss Kate Field, according to an interview in the Advertiser, is imbued with the idea that the labor problem with annexation could be solved by the introduction of negro labor from the Southern States. It is to be presumed the thousands of Chinese in the islands at annexation would be shipped to California, against which there could then be no impediment under the Constitution of the United States. Then the hordes of colored laborers from the Southern States, being American citizens, would hold the balance of power in our elections. Oh, what sighing there would be then for the old days of native rule with intelligent foreign cooperation!

Repairs to the Warrimoo.

The Vancouver News-Advertiser says that the Canadian-Australian steamship Warrimoo has been thoroughly overhauled since running aground off Bonilla Point some three months ago. The repairs necessary were much greater than was at first expected, for over 60 plates and a number of knees had to be taken off and straightened, and a portion of the frame which was found to be seriously twisted also necessitated straightening. The whole work of repair cost something like \$125,000 and took three weeks with a large gang of men working night and day. Capt. C. E. Bird has resumed the command, and Mr. Lawrence, of the Mowara, has taken Mr. Arundel's position as first officer of the Warrimoo during this trip.

Benevolent School Girls.

Sweet charity is moving the girls of the High School to do what they can toward giving the unfortunate people on Molokai a merry Christmas. They are making up large quantities of stuff into presents, a great portion of which will be articles of clothing. The example of these school girls might be followed by many other people, as there is a large number of persons at the settlement who would be grateful for articles of comfort.

Ten Minutes at Bailey's.

A short call at Woven Wire Bailey's well repaid a BULLETIN reporter the other day. The unique machinery in use there for the manufacture of mattresses and beds is interesting, to say the least. Mr. Bailey has a wire weaving apparatus which weaves a wire mattress of the best quality in less than an hour. He consumes several tons of iron each month in the manufacture of iron beds and out of each 3½ tons has about 1500 pounds waste. This is a large item, so Mr. Bailey, to prevent loss in that direction, has a drilling machine and forge and converts the waste into braces for telephone poles, etc. Excellent materials are used in all parts of the mattresses turned out by Bailey.

Timely Topics

ADDRESSED TO THE YOUNG
MAN WHO WANTS
A TANDEM.

Young man, you will do well to wait until you see the Tribune Tandems, which will be the finest manufactured, embodying all the latest improvements up to 1896. Don't be deceived into buying a lot of Stearns' "Yellow Fellows" that are back numbers and were manufactured in 1894 and sold on the western shores in 1895 as up to date, when they are not. We have reason to believe and are so informed by reliable San Francisco agents that the "Stearns" wheels that have been imported and placed on sale here are not of the latest pattern, and hence caution would-be purchasers to look out for themselves and not be deceived into buying an antiquated wheel.

One of the largest dealers in bicycles in the United States furnishes us with the following information in regard to the "Stearns" wheel for publication:

"This is a wheel that, owing to the nice finish and the fact that they were the first to get out an adjustable handle bar, took quite a spurt, but we have known of many cases where they have not given satisfaction. The writer in October, 1894, bought a 'Stearns' wheel that was badly out of order in December. He sold it to a friend of his and it has been the cause of complaint constantly since. At the same time two 'Stearns' ladies' wheels were purchased, and they have been a source of expense and annoyance ever since, until the two ladies owning them sold them at a sacrifice and bought Tribunes, and they claim that the Tribune wheel is far superior to the Stearns."

These facts speak for themselves. We ask any intending purchaser to take one of the Stearns wheels to any first-class mechanic and have him take it apart and compare it with the corresponding features of the Tribune wheel. We know that an honest opinion would be that the Tribune is by far the better wheel and hence make the challenge.

We have some Tribune Tandems on the way here direct from the factory. The reason we did not get them on the Australia was because they were not finished. Everybody remembers Punch's advice to people about to get married, which was "Don't." We give the same advice to those about to purchase a Stearns tandem or single wheel. Call and examine the Tribunes; they are far superior in every respect and won't eat up your wages in repairs.

We have ten boys' and girls' wheels for Christmas, and we intend to sell every one of them.

Laborers for the Planters.

HAVING JUST RETURNED FROM Japan, where I have been in the interests of the labor supply for our plantations, I am prepared to furnish any number of laborers under the only practicable plan yet put forth.

MY PLAN as set forth in the prospectus of Ogura & Co. requires the planters to pay the passage money of the laborer to this place and other expenses after arrival, \$25.00 passage money for each male and \$20.00 for each female. After investigation of the subject I am satisfied that it is the only plan by which laborers can be recruited for this place and be reasonably sure of obtaining them. I most respectfully request that your orders be placed with me as soon as possible in order to secure the approval of the authorities here and to enable me to have the laborers recruited quickly.
